

MDRC Newsletter January 2025

All,

As we brought 2024 to an end, I want to thank all of the members for their help in making this another successful year. We have accomplished a lot this year, new additions to the range. Hopefully 2025 will continue to be as successful.

We now have the Trap House completed and in use. It has been a long process, but we finally have it up and running. There are still a few improvements to make but we are getting close.

We also have added the Down Range Alert system, warning lights and horns to alert everyone at all the shooting stations that someone is moving/working downrange. This has been a long talked about addition. We have attempted to notify everyone of this addition. Its use has been posted at four locations across the range, posted on our Web Page and emails sent out to all members. If you did not get the email about this addition, check your Spam folder. If not found please contact our Secretary or myself to check the current email address we have listed and update if necessary.

Another project in the works is a new building. It will be completed as money becomes available. The primary use will be for meetings to include the Directors Meetings, the Annual Stockholders Meeting, classroom training such as the IDPA Safety Officer training and new member orientations. We are considering making it available to members to use for special occasions or parties. More on that once it is completed.

In closing, I hope you and your families had a Merry Christmas and any Happy New Year parties went well for you. Yes, I still say both.

Stay Safe,

Bob Cheslock, President
Mason Dixon Rifle Club
